THE NORDHEIMER PIANO

THE Nordheimer is a rare combination of all those qualities which go to make a superior piano. Remarkably rich tone, sensitive touch and beautiful appearance combine to make a piano that is considered by experts to be one of the finest on the market today. Make Nordheimer your choice. You will be supremely satisfied.

"The Baldwin" Piano FOR MUSICAL EXCELLENCE

*"There is a Wealth of Tone in the Baldwin
that Causes Artists to Linger"*

—Unquestionably a piano unsurpassed in quality of musical tone—"The tone is incomparable!" artists exclaim. The reason, of course, lies in the patented acoustic construction. A construction known only to the makers of "The Baldwin"—a construction solely responsible for the tonal qualities it possesses.

—"The Baldwin" is unconditionally guaranteed—the sounding board for all time.

Faces Manslaughter Charge

City Police Ordered to Proceed With Case

Action against Luis Diepold, 10462 97 street, facing a charge of manslaughter in connection with the death of nine-year-old Moira Holmes, who was fatally injured when knocked down by Diepold's car, here last Thursday afternoon, was proceeded with today when he appeared before Magistrate P. C. H. Primrose in city police court.

The decision of the attorney-general's department to go ahead with the case comes as somewhat of a surprise following the verdict returned by the coroner's jury at the inquest held on Monday morning. It had been indicated, following the verdict of accidental death, that Diepold would appear in court on Tuesday morning and be formally discharged.

Although they returned a verdict of death by an accident, the jury recommended that Diepold be severely censured for operating his motor vehicle while knowing that the brakes were in a defective condition and Mr. Bigelow announced that the authorities had decided to proceed with the case on the grounds that the defective brakes on Diepold's car may have been responsible for the accident.

Diepold, who has been held in custody at city police headquarters ever since the accident, was arraigned before the magistrate today and following the conclusion of the preliminary hearing, will probably be sent up for trial by a higher court.

You are invited to use our HOSIERY REPAIR SERVICE

We are now able to offer a quicker and superior repair service for silk stockings.

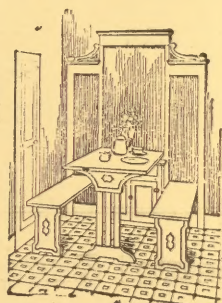

The actual reknitting of runs is accomplished by the ingenious Stelos needle, by means of which the original thread is picked up and knitted up into position and then dexterously held in place with an exquisitely fine sewn catch—the sole evidence that the stocking ever has been damaged.

The charge is small and the time required—twenty-four hours. Phone 27 631.
